

Knights Email – BlackBerry 10 Devices

Knights Email can be configured to run on your BlackBerry 10 devices. You can either use Exchange/Active Sync and have access to your email, calendar, and contacts, or use POP or IMAP and have access to only email.

Configuration on BlackBerry 10

You can configure your email to work within BlackBerry 10 a few different ways.

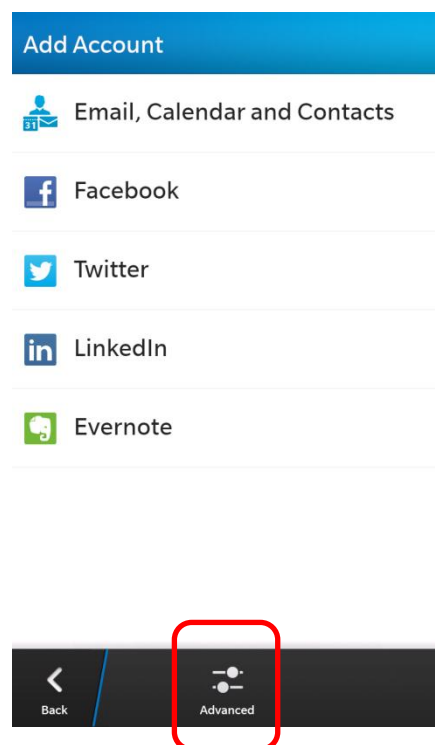

Go to **Settings**

Go to → **Accounts**

Go to → **Advanced**

Microsoft Exchange (Active Sync) Configuration

Microsoft Exchange ActiveSync, will allow you sync your Email, Calendar, & Contacts across multiple computers and devices

1. Go to → **Corporate Sync** or **Exchange ActiveSync**

Dismiss

2. Enter in the following Information:

Domain: **knights.ucf.edu**

Username: **username@knights.ucf.edu**

Email address: **username@knights.ucf.edu**

Password: **YoUrPaSsWoRd** (Case Sensitive)

Server: **m.outlook.com**

Secure: **On**

Port: **443**

IMAP and POP Configuration

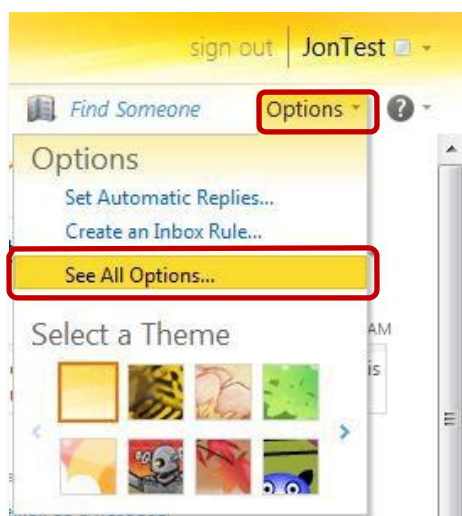

IMAP allows you to have just your email synced between devices. POP allows you to send and receive mail, but it is not synced with any other devices.

You will need to have your unique server name in order to use POP or IMAP.

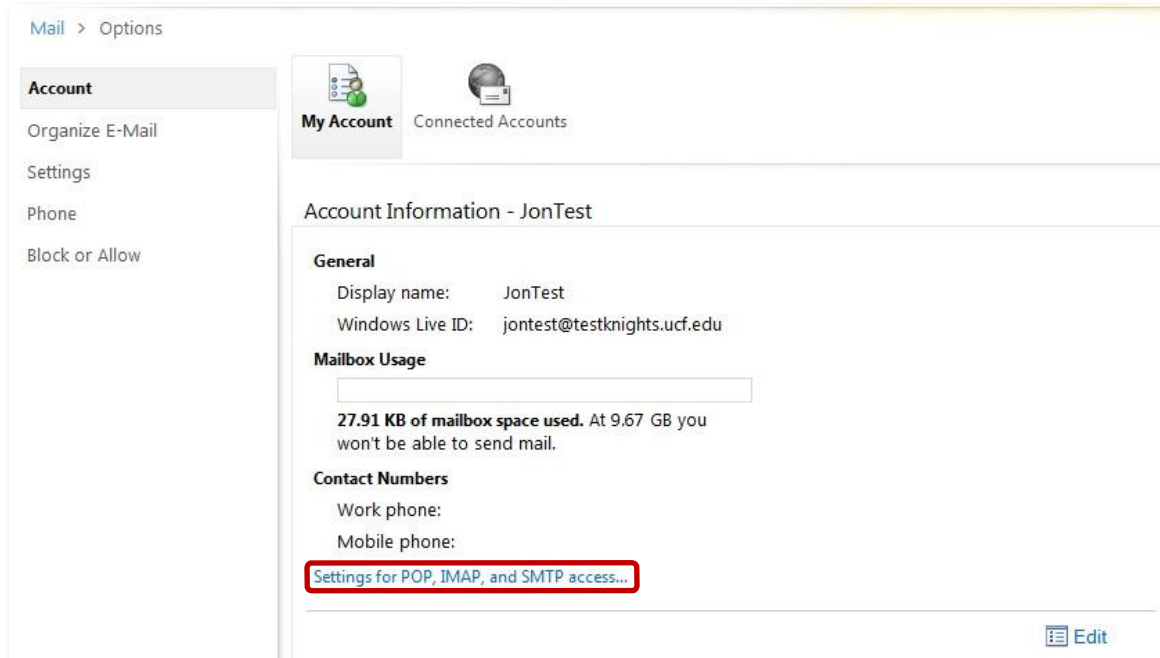

Retrieve Unique POP/IMAP Server

You will need to get your unique server from your Outlook Web App. You can do this by logging into <http://www.outlook.com/knights.ucf.edu> and log in. Then go to

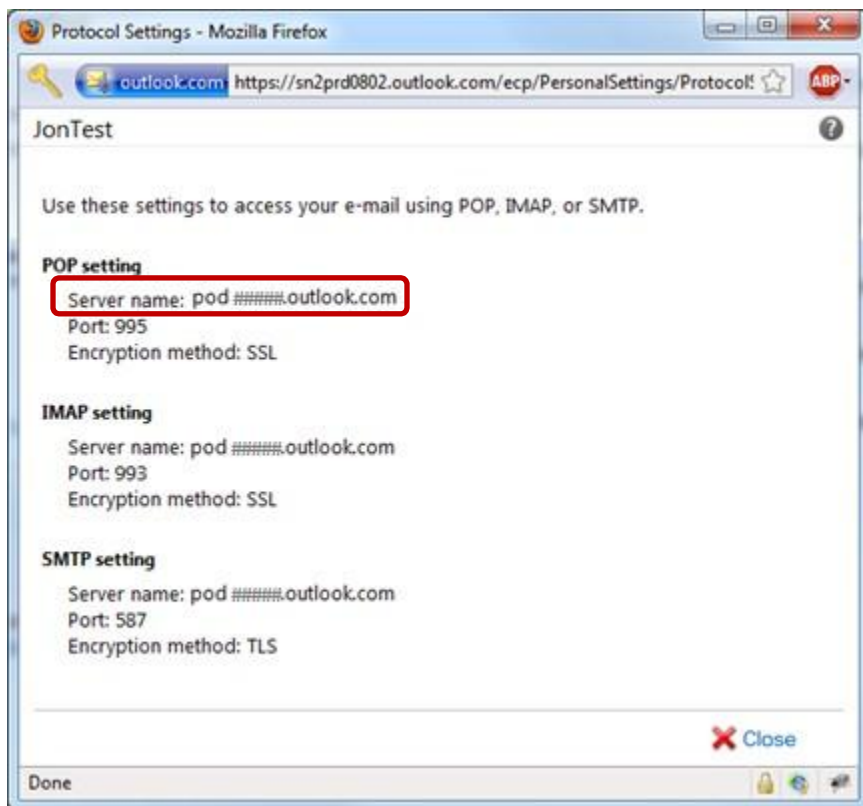

Options → See All Options...

Click on **Settings for POP, IMAP, and SMTP Access**

Your Server is the one next to **Server Name:**

IMAP Configuration

IMAP will only sync your phone with your Email

From the Advanced Setup menu go to → **IMAP**

Sync Interval

30 Minutes

POP Settings

POP will not sync, but it will just send and receive email from the server. It is almost the exact same as the IMAP setup except the **Incoming Port** is **995** and you select **POP** instead of IMAP from the Advanced Setup menu.
