### Headsets

Our top three models...

#### V100 Wireless Headset

This headset can be worn three ways and pairs easily with most business phones. You can talk up to 300 feet away from the base and for up to 10 hours of talk time (up to 120 hours of standby time).

#### Supra Plus

This over-the-head set provides all-day wearing comfort and reliability.

#### Mirage

This lightweight over-the-ear piece has a noise-canceling microphone and a Quick Disconnect feature that lets you walk away from your phone while wearing your headset.

## UCF Cisco IP Phones & Features

Telecommunications offers a range of Cisco IP phones to provide high quality, reliable and cost effective solutions for the communications needs of the UCF community.

Visit [www.cst.ucf.edu](http://www.cst.ucf.edu) for more information about our products and services

**Cisco Phones** are able to display information such as the UCF directory, call history and provide on-screen help.

### Cisco 7945

The '45 is our basic model of Cisco IP phone. This feature rich phone has dynamic menus, customizable settings and services. It provides 2 Line Keys and 4 Soft keys.

### Cisco 7965 (Our most popular model!)

The Cisco 7965 has the same great features as the 7945 but it has 6 Line Keys and 4 Soft keys.

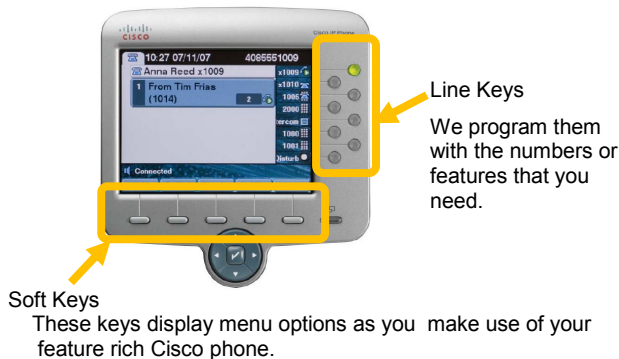

### Cisco 7975

The '75 model takes a leap forward with a larger touchscreen display that makes accessing phone features even easier. It has 8 Line Keys and 5 Soft keys.
