

Student Perception of Instruction (SPI)

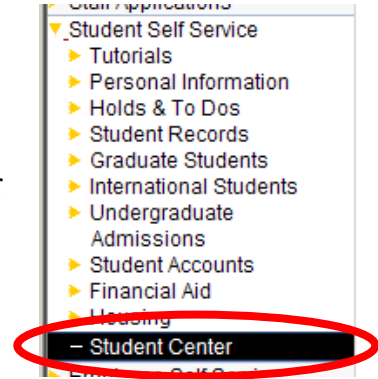

Student Questions

1. Why don't I see my SPIs in the myUCF portal?

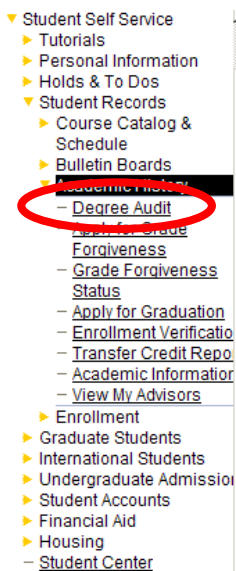

First, be sure they are available. The SPIs are only available the last two weeks of class.

Second, be aware that not all classes require an SPI. You may not have an SPI for a class if it is an internship, thesis, independent study, non-graded lab, practicum, dissertation or research class.

If you are certain you should see the SPI page but it does not appear when you select Student Self Service, then select Student Center and the SPI page should open.

2. How do I get my academic information now and answer the SPIs later?

The SPIs can't be retaken or changed. Do not start them unless you have the time to finish them. Your student information can be reached by using the menu links on the left hand side of the myUCF page.

Ex: A student who needs a degree audit before meeting with their academic counselor would select Student Self Service>Student Records>Academic History>Degree Audit to get to the Degree Audit page.

3. How do I fix a mistake on one of my SPIs?

Just as a paper copy can't be altered once it is turned in there is no way to change an SPI once it has been submitted.

For that reason we advise students that before they start the SPI for a class they should be certain that 1) they know which class they have selected for evaluation and 2) they have enough time to read the instructions thoroughly and answer all questions.
